Re: Cross Connection Ordinance # 782

Dear Valued Customers:

Ordinance #782 requires that the Town of Centerville follow the procedures and protocol for the Cross Connection Ordinance. This ordinance is on file, within the Town of Centerville Ordinance Book II.

The Town of Centerville will be conducting an ongoing program for the detection and elimination of possible hazards associated with cross connection. A cross connection is a link with the public water supply and a possible source of contamination, the contamination could be pulled back into the public water supply. This occurrence, known as backflow, can be prevented.

As part of the prevention program, the Town of Centerville will be surveying all residential customers during a five year period and may require an inspection.

Complete the survey enclosed, return with the current utility bill. If you have questions and/or require assistance please contact Nelson Harrington, Cross Connection Coordinator, (931)-729-4246.

Your assistance is greatly appreciated: we look forward to working with the community.

Sincerely,

Nelson Harrington
Cross Connection Coordinator
Certification # 7228

ATTN: The Well/Spring User Agreement and Cross Connection Survey must be completed prior to applying for an application for water service.

WELL & SPRING USER AGREEMENT

In accordance with Town of Centerville Cross Connection Control Program, a private well, spring, and/or auxiliary water source may not be connected in any manner to the public water supply unless proper protection against cross connection is provided. Only a Reduced Pressure Backflow Preventers may be used for protection. These devices must have prior approval by the Town of Centerville Cross Connection Coordinator and must be checked annually either by the Town of Centerville or by a Cross Connection Certified Individual. A record of this device must be kept at the Town of Centerville. Customers not in compliance with this rule will have their water service discontinued.

Check Appropriate Box

This serves as notification that a well is located on the property at the following address:
